## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of claims 1-13 and 19-24 in the reply filed on 01/09/2006 is acknowledged.

### ***Drawings***

2. The Drawings are objected to since photographs are not permitted in the drawing section. See 37 CFR 1.84.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 8-13 and 19-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Jordansson (French patent No. 83 00577).

Jordansson teaches an extended wear chain comprising a chain component having a zirconium nitride coating and a titanium nitride coating. See page 2 and Fig. 1.

### ***Claim Rejections - 35 USC § 103***

Art Unit: 3724

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jordansson.

Jordansson teaches the invention substantially as claim except for the thickness of the coating being equal or less than 12 microns. Providing the coating having a desired thickness to achieve a desired degree of anti-weariness of the chain saw is routine skill in the art. Therefore, it would have been obvious to one skilled in the art to provide a coating layer equal or less than 12 microns to the chain saw of Jordansson to achieve a desired degree of anti-weariness of the chain saw.
